

Are you trying to get your Trucks thru US& Canadian Customs quicker?

Are you struggling to figure how you are going to deal with ACE (US Customs), CSA and ACI (Canada Customs) for your freight?

Do you need a solution that will work with your current software without having to re-key all your information into some Web Portal?

Do you want dispatchers to only have to deal with one system for dealing with Customs Clearance no matter which country?

Do you deal with multiple shipments on one trailer or splitting freight on multiple shipments, Hazmat?

Do you want the only solution written on the AS/400 (Iseries) that supports direct connects to US Customs.

At E-Commerce Solutions by Canucks Inc we have the solution for you. We have been certified with ACE (US Customs) and updating our software to handle the new Canadian Requirement for CSA shipments.

Other software solutions on the Iseries require a 3rd Party (ie. Vans) to do the EDI conversions. Why spend more money, pick the solution that will save you money today?
